CHEMICALS. TECHNOLOGY. PARTNERSHIPS.

Headquartered in Florence, Alabama for over 40 years, Arcadian Services is an independent, American, family owned and operated chemical manufacturer. We focus on formulating and manufacturing quality products in the USA, as well as customizing formulations tailored to our customers needs. Customer service is a key element of Arcadian. Our friendly staff caters to customers with fast order fulfillment to ensure products are supplied on time. Our flexible in-house manufacturing operation allows us to meet customer needs even in the event of an emergency situation. Our goal is to build successful and mutually beneficial relationships with all of our customers. We strive to do this by meeting the individual goals of our customers in a timely and cost-efficient manner. Our focus is on safety as well as our high standards for the quality of our products. We're dedicated to helping you maximize your profits, minimize your costs and increase your customer loyalty, with our unique line of products designed to support your success. Quality has been a part of the Arcadian mission statement since its inception. For that reason, Arcadian is always focused on enhancing our products, designing new formulas, and listening to customer specific needs. By keeping a listening ear to the car wash owner/operator, Arcadian can provide and recommend quality products based on the individual needs of the customer.

Add-A-Dye is a series of colorants that are dual injected with selected Arcadian chemicals to provide the ultimate show. Consult your Arcadian Representative for the colors and recommended dilutions.

ARCADIAN DEFOAMER

Silicone Based Defoamer additive used to reduce foam in your solids separation tanks and reclaim processors that can be used with silicone products. Simply inject a small amount of the Defoamer into the wastewater system and foam build up is no longer an issue. This product is diluted 10 parts water to 1 part Defoamer in use.

AURORA® HYDRAGUARD 67

Aurora® Hydra-Guard 67 is a premium oil free, water-glycol, water-soluble hydraulic fluid for conveyorized car wash tunnel systems. Aurora Hydra-Guard 67 is beneficial in the case that hydraulic fluid is accidentally sprayed onto a vehicle during a hydraulic leak and is easily removed with a basic water rinse. It is free of any mineral oils and will not leave residue on vehicles. Aurora Hydra-Guard 67 has a high viscosity index along with a low pour point to ensure excellent performance even during cold weather. Aurora Hydra-Guard 67 is an environmentally-conscious water-based formula.

BUG ZEN

High pH bug and other organic material removing product. Simply spray on using a low pressure sprayer or add as a sell up item for your wash. Bug Zen will eliminate the organic material from bonding to the vehicles glass, grill, and painted surfaces. Dilutions range from 35 to 125:1 based on conditions.

CARNAUBA-SHINE

Arcadian's Carnauba-Shine and Protection Spray is a ready-to-use product and a great solution to keeping your car, truck, or motorcycle looking like new while providing outstanding protection against the elements. Carnauba-Shine is made from real Brazilian Carnauba Wax and easily applies, protecting the surface from harmful airborne pollution, contamination and water spots. Simply spray and remove with a dry cloth to bring an incredible shine in minutes.

CHASSIS-BOND

Arcadian's Chassis-Bond is an excellent choice for vehicle undercarriage cleaning and protection. Chassis-Bond leaves a protective film to further defend against foreign contaminants affecting vehicle underbodies. This specially concentrated formula works to inhibit rust, making this an excellent add-on to any car wash tunnel or in-bay automatic system with an undercarriage spray applicator.

FOAMER PLUS

Foamer Plus is one of our foaming additives to provide increased show in selected Arcadian products. For use in low pH products. Consult your Arcadian representative for the use and recommended dilutions.

FRAGRA-SPRAY

Fragra-Spray is our series of sprayable fragrances for use as an interior fragrance where fragrances are offered as an option. A wide variety of **Fragra-Spray scents are offered including Black Leather, New Car, Pina Colada, Cherry, Lemon, Vanilla and Baby Powder.**

HALO GLASS CLEANER

Halo is an ammonia-free glass cleaner concentrate and is a non-streaking, industrial-strength formula that cleans glass, acrylic and tinted windows. Each gallon of concentrate makes up to 18 gallons of ready to use glass cleaner. Halo has been formulated with ingredients that help in penetrating dirt and grime and its ammonia-free formulation provides safe cleaning for tinted glass. Halo is ideal for use in athletic facilities, hotels, automotive detail shops, car and truck dealers, car washes, commercial buildings, hospitals, assisted living facilities, conference centers, office buildings, and schools.

INJECT-A-SCENT

Inject-a Scent is a series of fragrances that are dual injected with selected Arcadian chemicals to provide the ultimate customer experience. **Inject-a Scent is available in Fuji Apple, Cherry Berry, Grape, Coconut Lime, Ocean Mist, Spearmint, Pine, Cinnamon and Pumpkin fragrances.** Spring and fall seasonal scents. Recommended dilutions from 1 to 200 up to 400

MIRROR CARNAUBA SHINE

Simply spray on and wipe off for that just waxed feel and shine! Mirror Carnauba Shine is a unique combination of True Carnauba Wax and ceramic compounds that combine to form a Soft Ultra Violet protective layer designed to protect your vehicle from harsh environmental conditions and enhance your vehicles natural shine. Apply after every wash to give your vehicle a fresh layer of Ceramic Protection.

PREVAIL WASH & WAX

Arcadian's Aurora® Prevail is a highly foaming, colored and scented wash and wax designed to clean and protect vehicles in one easy step. This deep cleaning and foaming conditioner and protective formula removes road films while providing surface protection. For best results, avoid washing the car in direct sunlight, rinse off heavy dirt and debris from the vehicle, add 1oz of Arcadian's Aurora Prevail Wash & Wax Car Wash to an empty 1 gallon pail and fill pail with water.

RECLAIM BOOSTER

Arcadian's Reclaim Booster is a mixture of cultures designed to treat surfactants, oils, greases, hydrocarbons and other wastes commonly found in carwash reclaim pits. The breakdown of these materials eliminates odor problems and improves reclaim water quality. Reclaim Booster is economical to use and works in all-weather climates. It is also compatible with most reclaim systems and will not interfere with the performance of the washing chemicals. Another benefit is that this will help keep your car wash bays free of buildup and deposits.

SLATE LAUNDRY DETERGENT

Arcadian's Slate is a concentrated PHOSPHATE FREE LIQUID laundry detergent with an advanced formulation for today's fabrics. Slate has been carefully formulated with ingredients that help penetrate fabrics to release surface tension, and penetrate soils to provide safe cleaning for most fabrics. It is ideal for use in athletic facilities, hotels, car washes, commercial laundries, hospitals, assisted living facilities, conference centers, office buildings, and schools.

SUDS PLUS

Suds Plus is one of our foaming additives to provide increased show in selected Arcadian products. For use in neutral and high pH products. Consult your Arcadian representative for the use and recommended dilutions.

SUPER SOAP™ - POWDERED DETERGENT

Our original famous economy powdered presoak provides good cleaning and removal of road film. Draw ratio up to 8:1. Super Soap is also an excellent powdered laundry detergent designed to remove difficult stains from clothing.

FACILITY, WALL AND EQUIPMENT CLEANING PRODUCTS

C3 FACILITY, WALL AND EQUIPMENT CLEANER

C3 is a "Non Hazardous" cleaner which uses "Acid Replacement Technology" combined with our leading surfactant technology used in many of our industry leading wall and equipment cleaners. C3 is a general purpose cleaner that has been specifically formulated to meet the challenges of cleaning car wash walls, equipment, signage, windows and other areas with buildup of multiple chemical compounds and road grime and where deposits have combined resulting in difficult cleaning situations. C3 can safely be applied to multiple surfaces by simply spraying the product onto the area and letting set for up to 2-minutes, then simply rinse off using high pressure water or a wet sponge.

C3 Facility and Wall Cleaner has been found to be safe on most materials and is considered to be a safer product to be used by employees or when cleaning in a poorly ventilated facility is required. C3 Facility and Wall Cleaner is safe to the touch but with all chemistry it is recommended you wear safety glasses, N-95 rated mask and chemical resistant gloves when handling this product.

C3 Facility and Wall Cleaner is a concentrated product which should be diluted before use. Please reference product label or Product Data Sheet for recommended dilutions and application recommendations.

C3 READY TO USE FACILITY AND WALL CLEANER

C3 RTU is a ready-to-use non-hazardous cleaner which uses “Acid Replacement Technology” combined with our leading surfactant technology used in many of our industry leading wall and equipment cleaners. C3 RTU is a general purpose cleaner that has been specifically formulated to meet the challenges of cleaning car wash walls, equipment, signage, windows and other areas with build up of multiple chemical compounds and road grime and where deposits have combined resulting in difficult cleaning situations. C3 RTU can safely be applied to multiple surfaces by simply spraying the product onto the area and letting set for up to 2-minutes then simply rinse off using high pressure water or a wet sponge.

C3 RTU Facility and Wall Cleaner has been found to be safe on most materials and is considered to be a safer product to be used by employees or when cleaning in a poorly ventilated facility is required. C3 RTU Facility and Wall Cleaner is safe to the touch but with all chemistry it is recommended you wear safety glasses, N-95 rated mask and chemical resistant gloves when handling this product.

C3 RTU Wall and Facility Cleaner is a ready to use formulation that reduces the need to mix the product prior to use and is used in areas of the country where water chemistry can dilute the chemistries function. Please reference product label or Product Data Sheet for recommended application recommendations.

NU-WALL™ THE #1 WALL AND EQUIPMENT CLEANER

NU-WALL™ THE #1 WALL CLEANER

NU-WALL™ 2 THE #1 HF FREE WALL CLEANER

Thanks to Arcadian Services Nu-Wall, wall cleaning is fast and easy! Spray Nu-Wall on brick, block, metal, or fiberglass panels. Allow to sit a minute or two. Rinse away with high pressure for a CLEAN wall! Your walls will look "brand-new" and it requires no scrubbing.

NOTHING CLEANS WALLS LIKE NU-WALL

ARCADIAN'S CLOSED LOOP SYSTEM

ADVANTAGES OF CLOSED LOOP SYSTEM

- Seals container and creates a closed loop system
- Eliminates foot valves
- Eliminates cross contamination
- Eliminates evaporation
- Suction produces negative pressure in the container, creating a vacuum, allowing for nearly 100% of product to be drawn from container
- Caps can be ordered color coded if desired to code by chemistry type
- The cap can be reused many times
- Viton wafer valve has been tested on all of Arcadian products
- 1 and 1/2 gallon containers using the closed loop system allow for easy and quick volumetric analysis

ARCADIAN'S NEXT GENERATION MIRROR BEYOND CERAMIC PRODUCT LINE

CLEANER. SHINIER. DRIER.

Our Beyond Ceramic Coatings create a barrier against road films, grime and mud to prevent them from adhering to the vehicle. Once applied, the surface will repel water which will drastically reduce drying time. The high reflective gloss properties of these coatings leave the vehicle with a clean, clear, deep finish and a longer lasting shine.
